

IN THE COMPANY OF Dali

This high-quality art book features a unique collection of photographs of the world-famous surrealist artist, Salvador Dali. Bob Whitaker was invited to stay with Dali at his home in Spain and to photograph the 'maestro' as he worked and relaxed – the result is a stunning collection of images that portray the unique humour of the controversial, and widely misunderstood, artist.

Bob Whitaker toured the world with the Beatles in the 1960s and gained an international reputation for his photo-journalistic approach to photographing celebrities. His work has been widely exhibited and commands high prices.

An exciting and unique collection of photographs in black & white and colour – many of which have never been previously published.
