Rice and water – that's all. Unfortunately sake still hasn't the reputation in Europe that it deserves. A book about its history, production and the pleasure of drinking 'fluid silk' is much needed.

Author Susanne Rost owns Germany's leading sake importer in Berlin and together with her Japanese husband enjoys promoting high-quality sake to a wide public. The book was originally scheduled for April, but as a result of the current crisis in Japan publication has been postponed until the autumn. Proceeds from the book will go to Japanese children's charities.
